## ***BREAKING NEWS - LIPITOR HAS GONE GENERIC!***

Pfizer's blockbuster drug, Lipitor, is the top selling cholesterol-lowering medication in Canada. On ClaimSecure's book of business this drug is one of the top 5 drugs claimed by our members.

Last week, multiple manufacturers have launched their generic equivalent. This breakthrough has the potential of significant cost savings for our clients who subscribe to ClaimSecure Generic Plans.

The generic versions have been added to our systems; however, pricing is still under review across the Provinces. It is expected that more information will become available within the next few weeks.

Once the pricing stabilizes, we will be better positioned to provide our clients with cost saving estimates. We will keep you posted.
